 Core Technical Insights

- **Instant 1.0R Trailing Breakeven Activation:** Moving the Stop Loss to Breakeven (0.0R) immediately when price hits +1.0R profit eliminates loss risk on trades that move in your favor, elevating Win Rate to **58.3% – 59.6%**.
- **Tight Risk Bracket (0.600 Entry / 0.700 SL):** Creates a 10% candle-range risk bracket, amplifying R-multiple gains on momentum expansions.
- **Data Integrity:** 15,313,290 continuous 1m OHLCV candles evaluated minute-by-minute with 0.05R maker/taker fee deduction.
